Career Objective

Computer Science Engineering student currently pursuing B.Tech in CSE (3rd Year), with a strong interest in full-stack web development. Skilled in HTML, CSS, JavaScript, Java, and other programming technologies. Passionate about building responsive and user-friendly web applications, solving problems, and continuously improving technical skills. Seeking opportunities to gain industry experience and contribute to real-world software projects as a Full Stack Developer.

Professional Experience

CNC MACHINE OPERATOR, TVS Sundram Fastners Limited **11/2024 – 05/2025**
Sri City

- Operated and maintained CNC machinery to produce precision components, ensuring adherence to strict quality standards and production schedules.
- Programmed and set up CNC machines, optimizing processes to maximize material yield and minimize waste.

Education

Bachelor of Technology (B.Tech), Computer Science & Engineering **Present**
NBKR Institute Of Science And Technology, Tirupathi, Andhra Pradesh
Currently in 3rd Year

Diploma in Computer Science & Engineering **2022 – 2025**
Geethanjali Institute Of Science And Technology, Nellore, Andhra Pradesh

Skills

- **Programming:** C, Java, Python
- **Web Development:** HTML, CSS, JavaScript, React.js, PHP, MySQL
- **Tools & Platforms:** Git/GitHub, VS Code
- **Other:** Team Collaboration, Problem Solving

Projects

Tourism Management Website *PHP, JavaScript, HTML, MySQL*

- Developed a tourism management web application that allows users to register, log in, explore tourist destinations, search for places, and book tours.
- Implemented an admin panel to manage tourist destinations, users, and bookings with complete CRUD functionality.
- Designed and integrated a MySQL database for storing user, destination, and booking information.
- Built interactive and user-friendly web pages using HTML and JavaScript with PHP for server-side functionality.

AI Learning Platform *MERN Stack*

- Developed a full-stack AI-powered learning platform using MongoDB, Express.js, React.js, and Node.js with secure user authentication.
- Implemented AI-assisted learning features, including personalized learning content, quizzes, an AI chatbot, courses, and progress tracking.
- Designed a user dashboard with dedicated Roadmap and Schedule/Timetable features to help users plan and organize their learning journey.
- Built an admin panel with CRUD functionality for managing courses, learning content, users, and platform data.
